

Washington State Department of Social and Health Services

Executive Leadership Team (ELT)

*Secretary Dreyfus has delegated Medicaid related authority to Doug Porter, Administrator of the Health Care Authority and State Medicaid Director. While the Medicaid Purchasing Administration currently resides within DSHS, we will be requesting that the Medicaid single state agency designation move to the HCA as part of the Governor's Health Reform plan.

Department of Social
& Health Services

Updated November 2, 2010

Secretary Susan N. Dreyfus believes in extending leadership, accountability and authority to every member of her Executive Leadership Team (ELT).

The ELT is structured in a circle around the Secretary and Chief of Staff to communicate that the ELT members are in a full and equal peer relationship. They have responsibility for assisting the Secretary in sharing a common vision and mission for the organization. The ELT is integral to assuring that our employees, key stakeholders and partners experience the department's values consistently throughout the organization.

The ELT will work to align the organization's strategic and financial resources for maximum impact on behalf of the citizens we serve and our employees, who are key to our ultimate success.
